SUMMER CAMP

STEM SUPPLEMENTAL

Geekwise Academy is now offering a summer camp opportunity for students in 5th through 12th grades.

Courses offer a peek into exciting careers with an emphasis on the importance of science, engineering, math and technology.

Each course is three hours long, with a lunch hour in between.

Students are encouraged to bring a sack lunch, as lunch will not be provided. Students will need to bring a laptop computer as well.

Maximum of 15 seats.

**\$50 discount if a single student is registered for both Game Design and Robotics.**

SEATING IS LIMITED

### ROBOTICS

9AM - 12PM

July 24 - August 4  
Weekdays

The cost of the course includes the hardware required. Students will be able to take their hardware creations (robots) at the end of the camp. Students will be exposed to computer programming, science and engineering practices. Students must provide their own laptops.

**\$450/STUDENT**

### GAME DESIGN

1PM - 4PM

July 24 - August 4  
Weekdays

The cost of the course includes the software required. Students will be able to export and take their software creations (games) at the end of the camp. Students will be exposed to computer programming, math and technology practices. Students must provide their own laptops.

**\$350/STUDENT**
